

Plunger Lock - Smart Lock

Enhance customer service and increase sales

Plunger II and III Locks are designed to secure cabinets with metal frame doors, wood bypass doors and glass sliding doors. Our Plunger Locks are easily retrofittable for pre-drilled holes in exist-ing furniture. The operational efficiency, improved customer service and speed to check out makes Smart Lock the perfect locked cabinet solution.

- › Sales associates are empowered to access locked display cabinets, delivering a more timely response to customers
- › Enhanced interaction with customers will result in increased sales
- › Part of the IR Ecosystem, a one key solution to storewide security.

FEATURES AND BENEFITS (PLUNGER LOCK II)

- › Designed for glass sliding and wood doors.
- › Simple to retrofit and install – lock mounts quickly to metal arm of sliding panel doors (22mm (0.87”) hole required).
- › Includes wood and metal screws and mounting bracket.
- › Lock Status Indicator provides visual confirmation that lock is locked or unlocked.

Lock Status Indicator
