SABEL

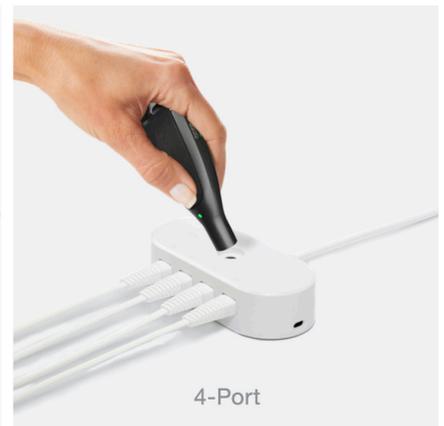

Features and Benefits

Zips Alarm Units are the foundation to creating a custom-tailored retail merchandise display. Plug in various sensor types to secure a variety of merchandise. Determine the quantity of merchandise you'd like to display first, and then decide if you'd like the Alarm Unit to provide alarm and power to the merchandise or if you would like an alarm only solution.

- 1 Can be mounted above or below counter
- 2 Available in four display quantity options:
 - 1-port
 - 4-port
 - 6-port
 - 12-port
- 3 6- and 12-Port Alarm Units can be daisy chained together to display a maximum of up to 48 products
- 4 Part of the OneKEY™ ecosystem

POWERED ALARM UNITS

Electronically secures and natively powers devices with various sensor cables (up to 1.5 A).

NON-POWERED ALARM UNITS

Electronically secures devices with sensors (can accommodate OEM power feedthrough).

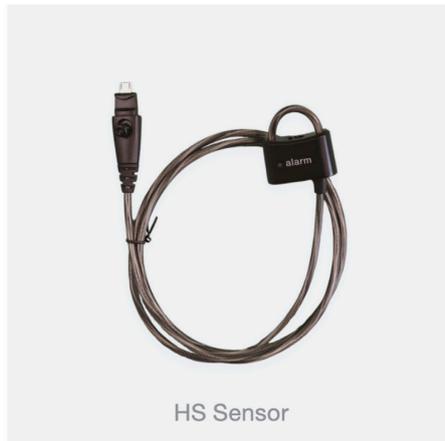

Features and Benefits (continued)

Once your foundation is set, you can choose from a variety of sensors depending on the type of merchandise you need to display and allow for customers to fully interact and experience the products on display. Sensors come in coiled cables, straight cables, hybrid cables, or recoiler options. Sensors can be swapped or disconnected easily for remerchandising or security protocols.

- 1 50+ sensor cables to accommodate any merchandise small or large
- 2 Sensor cables can be up to 2 meters in length
- 3 Secure to contoured or flat merchandise
- 4 Adhesive sensors use 3M industrial strength pressure sensitive adhesive for high strength bond
- 5 Sensors alarm when cut or disconnected from an armed alarm unit or merchandise
- 6 Utilise charging ports to provide power and security to various electronic accessories

Micro-plunger Sensor

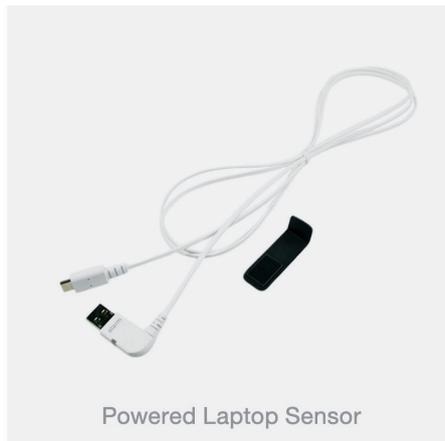

HS Sensor

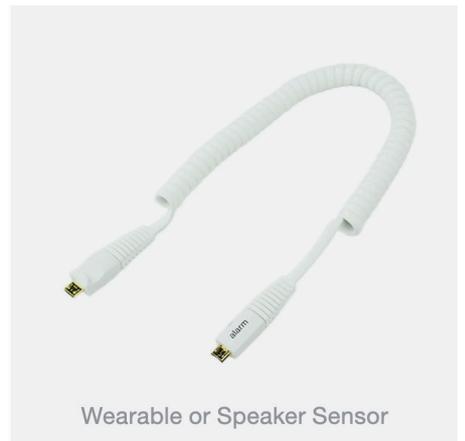

All-in-One Headphone Sensor

Flex Sensor

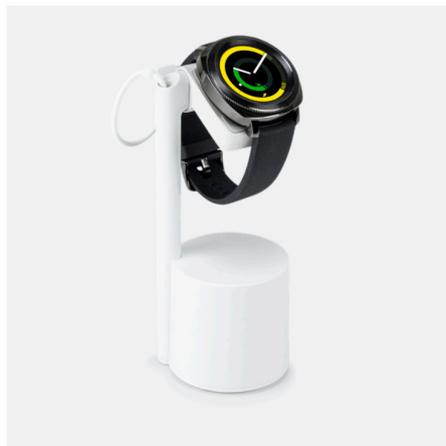

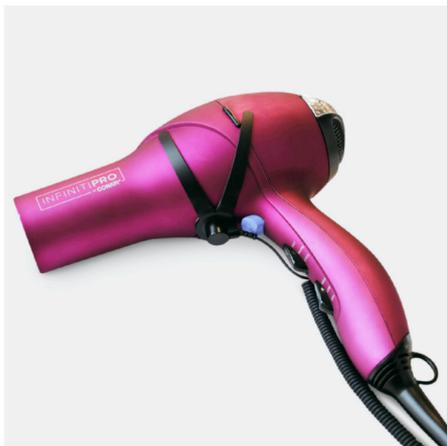

Powered Laptop Sensor

Wearable or Speaker Sensor
