

InVue Inside

Secure a great experience.

Wireless delivers a great experience – benefit denial software allows you to display with confidence.

**ALWAYS-ON PROTECTION**

Blocks devices from operation, reprogramming, reflashing, or resetting when taken from a retail location.

FLEXIBILITY

An ideal complement for physical security to increase confidence, control, and customer experiences.

SIMPLICITY

Installs quickly and operates without active network requirements.

InVue Inside is a benefit denial solution that enables retailers to prioritise the customer experience by adding an additional layer of theft deterrence.

SINGLE APPLICATION

NO INTERNET

FOR SAMSUNG SMARTPHONES & TABLETS

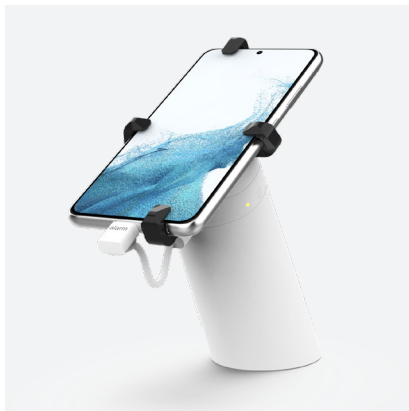

COMPATIBLE WITH ANY HARDWARE SECURITY

HOW IT WORKS

- 1 Software runs continuously in the background of mobile and tablet devices
- 2 When the device is lifted, software “listens” for RF Signal
- 3 Audible alarm triggers if device is taken outside a retail store
- 4 Device will alarm and stay locked until returned to the store

PAIR INVUE INSIDE WITH ANY HARDWARE SECURITY TO IMPROVE CUSTOMER ENGAGEMENT IN HIGH OR LOW-RISK ENVIRONMENTS.

LOCKED DOWN

- › Highest level of security
- › Maximum theft deterrence
- › Restricted customer engagement

LIFTABLE

- › Improved customer engagement
- › Improved brand interaction
- › Cleaner aesthetic

WIRELESS

- › Uninhibited product engagement
- › Authentic brand experience
- › Optimised sales process
- › Clean, minimal design
