OneKEY is the most secure and convenient key system that enables associates to assist customers quickly and easily. Each interaction from OneKEY instantly transfers to access control software, where you can assign access zones, deauthorize keys, as well as understand who interacted with what, and when. Operating on InVue LIVE, OneKEY allows you to monitor and manage all key interactions real time.

# OneKEY™ ecosystem

Security & Merchandise

Analytics

Access Control

## Advanced Technology & Software

Using unique infrared technology, OneKEY transfers power and data to a complete ecosystem of merchandise and mobile point-of-sale solutions, providing industry-leading protection to your high-theft products and essential operating systems.

# Simple. Flexible. Secure.

Zips offers scalable, alarm-based protection that grows with your display needs, ensuring everything is safe while enhancing the shopping experience. Showcase any powered or non-powered consumer products effectively and affordably with Zips.

## **EASY INSTALLATION**

Quickly and easily secure a variety of display merchandise with Zips' simple-setup alarm solutions.

## **UNIFORM DISPLAY**

Mount above or below counter to create clutter-free displays for powered and non-powered merchandise.

## **ONEKEY SIMPLICITY**

Using OneKEY, quickly remove devices for remerchandising or nightly security protocols.

# Alarm Units

---

# Secure display alarm units for large retail displays.

## At a glance:

### FEATURES AND BENEFITS

- › Mix and match stations together to secure up to 48 devices
- › Maximum of four Zips alarm units can be tethered to a single power source
- › Create flexible space-saving store planograms
- › Rechargeable internal backup battery (lasts up to 36 hours in the event of a loss of power)
- › Mount below counter using screws or pressure-sensitive adhesive
- › Compatible with OneKEY™
- › Simply disarm IR Dot for fast remerchandising or nightly product removal
- › USB-C sensors are recommended, or an adaptor is available to use with legacy sensors

6-Port Alarm Unit

12-Port Alarm Unit

# Powered alarm units for small retail displays.

At a glance:

#### FEATURES AND BENEFITS

- › 4-port alarm unit for smaller displays
- › Natively powers devices up to 1.5 A
- › Compatible with any Zips sensor
- › Part of the OneKEY ecosystem™
- › Mount above or below counter

# Single-port powered alarm unit for small retail displays.

## At a glance:

### FEATURES AND BENEFITS

- › Single-port alarm unit for smaller displays
- › Natively powers devices up to 1.5 A
- › Compatible with any Zips sensor
- › Part of the OneKEY ecosystem™
- › Mount above or below counter

ZB3002	1-Port High Security Plate w/nuts		› AF6313 recommended for installation › Used with high-security sensor cables

# Sensors

---

# Custom-tailor displays with Zips sensors.

Once the foundation for your retail display is set with Zips Alarm Units, you can now choose from over 50+ sensor types to secure your merchandise. Sensors secure to the alarm unit and allow customers to fully interact with and experience products on display.

## At a glance:

### FEATURES AND BENEFITS

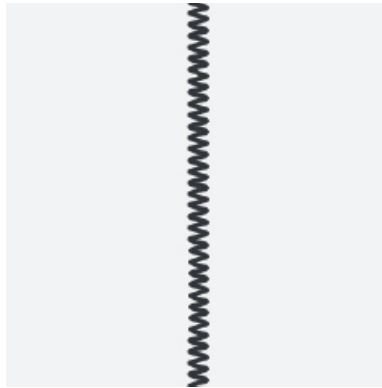

- › 50+ sensor cables to accommodate any merchandise small or large
- › Sensor cables can be up to 2 meters in length
- › Secure to contoured or flat merchandise
- › Adhesive sensors use 3M industrial strength pressure sensitive adhesive for high strength bond
- › Sensors alarm when cut or disconnected from an armed alarm unit or merchandise
- › Utilize charging ports to provide power and security to various electronic accessories

# Sensor Cable Options

Sensors come in coiled cables, straight cables, hybrid cables, or recoiler options, and can be swapped or disconnected easily for remerchandising or security protocols.

Straight Cable

Coiled Cable

Hybrid Cable

Retractable Cable Recoiler

High-Security Steel Cable

# Merchandise Connection

The merchandise connection type pairs the cable directly to the product depending on the type of items you want to display. If your products require power, you may opt for a USB-C or Lightning connector. For contoured products that don't require a power source, options like the Flex sensor are available.

Micro-Plunger

Mini Micro-Plunger

Laptop Micro-Plunger

Headphone Micro-Plunger

Adjustable Loop Sensor

Non-Adjustable Loop Sensor

Locking Loop Sensor

High Security Adjustable Loop Sensor

Flex

# Zips Wearables

Easy-to-install  
smartwatch  
protection with  
Apple Watch  
or OEM charging  
capability.

At a glance:

**FEATURES AND BENEFITS**

- › Two display options: exposed cord or recoiler
- › Magnets in both the cradle and band clamp attract for perfect placement
- › Anti-slip pad on cradle ensures device stability while on display
- › Easy-to-install flex sensors protect both wearable head and band and minimize false alarms
- › Compatible with Zips platform
- › Consistent visual merchandising when displayed with OnePOD
- › Two charging options: integrated Apple charging and OEM charging integrated in cradle

# Zips Modular

Flexible, cost-effective modular display solution for select merchandise.

At a glance:

**FEATURES AND BENEFITS**

- › Flexible implementations for both the Zips single port and four port alarm unit
- › Quick to install and easy to remerchandise with magnetic placement
- › Versatility for displaying many types of consumer electronic products
- › Cost effective, turn key solution with S850

## Zips Modular

**System components:**

- › Alarm unit (p. 7-8)
- › Shroud/Base
- › Puck
- › Sensor (p. 14-17)

Order Code	Description	Color	Notes
<b>Shroud / Base</b>			
ZE1000-B/W	Zips Modular Magnetic Shroud - Flat Base	› Black › White	
ZE1001-B/W	Zips Modular Magnetic Shroud - Angled Base	› Black › White	
<b>Pucks</b>			
ZE1002-B/W	Zips Modular Magnetic Stand - Short	› Black › White

<b>Additional Accessories</b>			Apple only
ZA2501-W	Headphone Stand		
F1210	Key Fob Pin Tool	4	
AF6313	Multi Tool		
DNTX93	Scoop Blade Removal Tool		› Compatible with AF6313
ZR4000	Recoiler Bracket Plate & Plug	1	
PS412	4-Position Power Supply - USB- A		
DBG400	Lockdown Tool	4	› Required to remove sensors from ZB1000-B/W, ZB1001-B/W & ZB1004-B/W

Keys

---

# OneKEY™

Give every associate a key to increase sales, decrease theft and improve safety.

At a glance:

## FEATURES AND BENEFITS

- › 12-hour time-out protection against key theft
- › Transfers power and data to a wide range of security products
- › Assigns a unique code to a store or department for better key management
- › Create store zones and audit use to reduce internal theft

## ONEKEY MANAGER (OKM)

The OneKEY Manager works through LIVE Access to help reduce internal theft by logging every InVue device for every associate:

- › Each associate is tracked by their own unique check-out codes
- › Keys will record times for checking-in/out keys, where the keys were used and how long displays were open
- › Logged information will be stored in LIVE Access for easy access and report generation

## OneKEY
